№ Profile

I'm a back-end developer with experience in problem-solving across various programming languages, including Python, PHP, Ruby, and Node.js, gained through my current role at Configr. I have a strong foundation in different languages and am constantly striving to improve my skills.

I've completed several relevant courses in Python, PostgreSQL, Ruby, Go Lang, Node.js, Docker, and Kubernetes. Additionally, I have knowledge of frameworks like Django and Ruby on Rails.

I am committed to continuous learning and eager to contribute my passion for programming in a challenging environment.

Employment History

Senior Support Analyst, Cloudez/Configr

I have experience as a Systems Administrator and Senior Support Analyst, managing and optimizing IT infrastructures using Docker, Kubernetes, Django, Apache, MySQL, PostgreSQL, Nginx, Puppet, Ruby, Python, Shell script, while also providing technical support and network security training.

07/2022 - Presents

Brasília, Brazil

IT Technician, Uptake Idiomas

I worked as a Technical Support Specialist at a technology company, where I utilized my skills in pfSense, Windows Server, and Linux system administration. I also designed projects for network architecture, administration, and security.

03/2022 - 06/2022

Juiz de Fora, Brazil

IT Technician, Kiffer Tecnologia da Informação

Network Security, Windows and Linux Server Administration, SQL Server, and Data Recovery. My responsibilities included protecting, managing, and recovering important data, as well as administering and maintaining systems and servers to ensure data and application availability and security.

08/2021 - 03/2022

Juiz de Fora, Brazil

Education

Ampli - Software Engineering

I am currently pursuing a degree in Software Engineering, where I aim to acquire advanced knowledge in software development, system design, and project management.

02/2023 - 02/2026

Juiz de Fora, Brazil

Pio XII Polytechnic School - Computer Technician

I completed a computer technician program, acquiring knowledge in hardware maintenance, computer networks, programming, and database management.

03/2021 - 06/2022

Juiz de Fora, Brazil
